5 SIMPLE STEPS TO YOUR PERFECT SMOOTHIE

1 FROZEN FRUIT FIRST
Every healthy smoothie starts with frozen Wild Blueberries because they’re loaded with antioxidants and phytonutrients; they also provide fiber, natural sweetness, and delicious taste. Frozen Wild Blueberries deliver a perfect, cool consistency with every sip.

2 VEGGIES NEXT
Smoothies are a great way to sneak a serving or two of veggies into your day, and veggies matter, because they provide the fiber, vitamins, minerals, and essential nutrients that your body needs every day.

3 CHOOSE YOUR LIQUID
Liquid is essential for controlling the thickness and drinkability of your smoothie. Liquids also offer a way to stay hydrated, restore electrolytes, and even add some calcium and protein to your smoothies.

4 THICKEN IT UP
Stay satisfied longer and improve your digestion by adding probiotics, creamy blendable proteins, and other fiber-rich, natural ingredients to your smoothies. Thickening up your smoothie the smart way keeps your body humming.

5 HEALTH AND FLAVOR BOOSTERS
The finishing touch on the perfect smoothie can be as simple as a teaspoonful of flaxseeds, a pinch of nutmeg, a lemon zest, or a sprig of mint. A host of flavorful boosters can turn an average smoothie into a shareable moment.

SERVES 2

INGREDIENTS
1/2 cup cashews, soaked in water for at least two hours
4 pitted Medjool dates, soaked in warm water for ten minutes
1 1/2 cups of unsweetened cashew or almond milk
1 cup frozen Wild Blueberries
1/2 tsp. vanilla bean paste
2 tbsp. pecans
1 tbsp. coconut sugar
honey for rimming the glass

METHOD
Combine cashews, dates and 1/2 cup of the milk in a blender. Blend until smooth. Remove 2 tablespoons of the cashew cream and set aside.

Add the remaining milk, Wild Blueberries and vanilla bean paste to the blender and blend until smooth.

Add the pecans and coconut sugar to a food processor and process until finely ground. Place the mixture in a small dish.

Rim two glasses with honey and roll in the pecan/coconut sugar mixture.

Pour the smoothie into the glasses, dollop the cashew cream into each glass and sprinkle the remaining pecan/coconut sugar mixture on top.

CASHEWS
Cashews add a buttery sweetness and fantastic consistency to any smoothie. By soaking cashews, you improve their nutrition—reducing the phytic acid and enzyme inhibitors levels, making them easier to digest.
